

## When you don't have the time to craft your own text

Businesses are pressed for *time*, juggling the **important** and the **urgent** tasks.

If the task is truly **urgent**, then the business must take care of it immediately.

But what about the **important** tasks—the ones that need to get done, but which always get delayed due to the **urgent** tasks?

Many of these tasks have to do crafting the text that your business communicates to your clients. These words can be distributed in many formats.

- Perhaps you need to place content on your company LinkedIn feed.
- Or perhaps your blog needs content.
- Or maybe it's some other channel, such as a Facebook post or an article for your company email newsletter.
- Or perhaps there's a document that needs content. Maybe you need to construct the text for your company's latest white paper.

But you've never found the *time* to craft the text.

Bredemarket can help. Bredemarket's "Short Writing Service" and "Medium Writing Service" processes are designed to provide your firm with the **important** words that you need, saving your firm *time* and letting the firm take care of the **urgent** stuff.

# Bredemarket
